## **Be Prepared for the Upcoming 2017-18 Flu Season** *Order Early and Save!*

Dear Valued Customer,

Flu activity reached elevated levels this month, and is expected to linger for several more weeks. As the 2016-17 season comes to an end, preparation for the upcoming 2017-18 flu season begins.

The Centers for Disease Control and Prevention (CDC) reports that the flu vaccine reduced the risk of flu infection by about half for the 2016-17 season, similar to the 2015-16 flu vaccine, which was about 47 percent effective. The CDC encourages people to be proactive and get their 2017-18 flu vaccine as soon as it becomes available.
