Bill Summary: Last edited by Allie Jo Shipman at Feb 6, 2019, 5:30 PM
This bill changes the definition of the practice of pharmacy to allow a pharmacist to dispense a 12-month supply of hormonal contraceptives to a patient pursuant to a standing order. It also requires pharmacists to complete an ACPE-accredited training program prior to dispensing under the standing order. This bill requires certain health insurance plans to provide coverage for patient care services provided by a pharmacist for hormonal contraceptives assessment and consultation. It requires the state Medicaid program (both FFS and managed care) to cover these services at a rate of reimbursement of 85% of the physician fee schedule.

This bill modifies the definition of "practice of pharmacy" to include prescribing and dispensing medications as an aid for tobacco use cessation. It also requires Maryland Medical Assistance Programs to provide coverage for pharmacist services rendered under this section to the same extent as services rendered by any other licensed health care practitioner.

Bill Summary: Last edited by Allie Jo Shipman at Feb 1, 2019, 4:54 PM
This bill limits payments to PBMs to the actual ingredient cost, a dispensing fee, and an administrative fee per claim in managed care. It prohibits PBM spread pricing in managed care and requires the PBM to report all sources of income to the health care plan, including rebates. This bill also requires PBMs to be licensed by the superintendent of insurance and to submit annual reports to the superintendent, and it provides additional oversight authority to the superintendent. The Senate companion to this bill is S 1507. (Budget Bill)

This bill allows pharmacists to dispense a self-administered hormonal contraceptive or administer an injectable hormonal contraceptive pursuant to a standing order to a patient over the age of 18 or under 18 who has evidence of a previous prescription from a practitioner for a self-administered or injectable hormonal contraceptive. This bill also states that pharmacist services are a benefit under the state Medicaid program and requires the department to establish a fee schedule for the aforementioned pharmacist services at a reimbursement rate of 70% of the fee schedule for physician services. The Senate companion bill is S 448.

Bill Summary: Last edited by Allie Jo Shipman at Feb 6, 2019, 3:21 PM
This bill amends provisions related to fair pharmacy audits to clarify that clerical errors are not prima facie evidence of fraud and to prohibit recoupment for the cost of the drug or dispensed product except in certain circumstances. This bill also prohibits claims adjudication fees unless apparent and assessed at the time of claims processing; prohibits contract terms requiring a pharmacist to dispense a drug to a patient; prohibits a PBM from notifying patients of the removal of a pharmacy from a network prior to notifying the pharmacy; and mandates PBMs notify network pharmacies of material changes to contract provisions at least 30 days prior to the effective date. This bill requires the state comptroller to perform an annual audit of PBMs providing services funded by the state. It also requires contract terms between PBMs and pharmacies to be mutually agreed upon; prohibits false or misleading advertisements or representation by PBMs; prohibits PBMs from failing to make payments to pharmacies removed from a network if services by the pharmacy were properly rendered; prohibits PBMs from reimbursing non-affiliated pharmacies less than it reimburses itself or affiliated pharmacies; and prohibits PBMs from designating a drug as a specialty drug based solely on cost.

This bill requires Medicaid managed care organizations to provide quarterly reports to the state related to pharmacy claims. It requires claims-level data on drug cost reimbursement, dispensing fees, copayments, and the amount charged to the plan sponsor (state). It also requires an itemization of all administrative fees, rebates, and processing charges associated with each claim. This bill also requires third party administrators for state employee health plans to provide similar information to state employees through an explanation of benefits and to provide aggregate data to the state related to the differences in amounts paid to pharmacies by the PBM, charged to the TPA by the PBM, and charged to the state by the TPA. (Budget Bill)

This bill requires health insurance issuers to apply any price spread by a PBM as an administrative cost and not a health benefit for the purposes of calculating the anticipated loss ratio. It allows only the amount paid to the pharmacy to be counted as a health benefit.

This bill requires managed care organizations to report prescription drug-specific information to the state, including the actual amounts paid to pharmacies for dispensed drugs, the cost invoiced to the health plan (state), and individual rebates collected for prescription drugs dispensed. It also requires managed care organizations to use a state-established preferred drug list (PDL). The Senate companion bill is S 5154. (Budget Bill)
