This bill limits payments to PBMs to the actual ingredient cost, a dispensing fee, and an administrative fee per claim in managed care. It prohibits PBM spread pricing in managed care and requires the PBM to report all sources of income to the health care plan, including rebates. This bill also requires PBMs to be licensed by the superintendent of insurance and to submit annual reports to the superintendent, and it provides additional oversight authority to the superintendent. The Senate companion to this bill is S 1507. (Budget Bill)

This bill requires Medicaid managed care organizations to provide quarterly reports to the state related to pharmacy claims. It requires claims-level data on drug cost reimbursement, dispensing fees, copayments, and the amount charged to the plan sponsor (state). It also requires an itemization of all administrative fees, rebates, and processing charges associated with each claim. This bill also requires third party administrators for state employee health plans to provide similar information to state employees through an explanation of benefits and to provide aggregate data to the state related to the differences in amounts paid to pharmacies by the PBM, charged to the TPA by the PBM, and charged to the state by the TPA.
