Bill Summary: Last edited by Allie Jo Shipman at Mar 8, 2019, 12:43 AM
This bill would allow pharmacists to prescribe tobacco cessation products and tuberculin purified protein derivative products. It would also remove the board authorization requirement for pharmacist prescribing of drug, drug categories, or devices that are limited to conditions that do not require a new diagnosis, are minor and generally self-limiting, have a test to guide diagnosis or clinical decision-making and are CLIA-waived, and are prescribed in accordance with FDA-approved labeling.

Primary Sponsors

Michelle Mussman

Bill Summary: Last edited by Allie Jo Shipman at Feb 6, 2019, 5:30 PM
This bill changes the definition of the practice of pharmacy to allow a pharmacist to dispense a 12-month supply of hormonal contraceptives to a patient pursuant to a standing order. It also requires pharmacists to complete an ACPE-accredited training program prior to dispensing under the standing order. This bill requires certain health insurance plans to provide coverage for patient care services provided by a pharmacist for hormonal contraceptives assessment and consultation. It requires the state Medicaid program (both FFS and managed care) to cover these services at a rate of reimbursement of 85% of the physician fee schedule.

Bill Summary: Last edited by Allie Jo Shipman at Mar 21, 2019, 11:59 AM
This bill provides that a pharmacist may dispense a 12-month supply of hormonal contraceptives to a patient who is age 17 or older pursuant to a standing order. It also requires a group or individual policy of accident and health insurance or managed care plan to provide coverage for patient care services for hormonal contraceptives provided by a pharmacist.

IN	HB 1248	Public Law 247 2019 05 05	Enacted	Support
Primary Sponsors Rita Fleming, Vaneta Becker, Ron Grooms, Steve Davisson			Bill Summary: Last edited by Allie Jo Shipman at Feb 7, 2019, 9:30 PM This bill allows a pharmacist to initiate a refill for the quantity on the most recent fill or a 30-day supply, whichever is less, for noncontrolled substances. It also allows the pharmacist to change the prescribed quantity or package size if it is not commercially available, relates to a change in dosage form, reflects the intended days supply, or if in the best interest of patient care. This bill allows a pharmacist to complete missing prescription information if there is sufficient evidence to support the change and to extend a maintenance drug for the limited quantity necessary to synchronize a patient's refills. This bill also allows pharmacists to prescribe inhalation spacers, nebulizers, supplies for medical devices (including CPAP machines and insulin pumps), normal saline and sterile water for irrigation, diabetes testing supplies, pen needles, and syringes.

This bill allows pharmacists to dispense a self-administered hormonal contraceptive or administer an injectable hormonal contraceptive pursuant to a standing order to a patient over the age of 18 or under 18 who has evidence of a previous prescription from a practitioner for a self-administered or injectable hormonal contraceptive. This bill also states that pharmacist services are a benefit under the state Medicaid program and requires the department to establish a fee schedule for the aforementioned pharmacist services at a reimbursement rate of 70% of the fee schedule for physician services. The Senate companion bill is S 448.
