Medicaid Reform (79)

#### Title

Medi-Cal: hypertension medication management services.

#### Description

SB 446, as amended, Stone. Medi-Cal: hypertension medication management services. Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Existing law provides for a schedule of benefits under the Medi-Cal program, which includes pharmacist services, subject to approval by the federal Centers for Medicare and Medicaid Services. Under existing law, covered pharmacist services include, but are not limited to, furnishing travel medications, initiating and administering immunizations, providing tobacco cessation counseling, and furnishing nicotine replacement therapy. This bill would additionally provide that hypertension medication management services are a covered pharmacist service under the Medi-Cal program, as specified.

#### Title

Pharmacy benefit management: Prescription Acquisition and Adjudication Agency.

#### Description

SB 642, as amended, Stone. Pharmacy benefit management: Prescription Acquisition and Adjudication Agency. Existing law provides for the regulation of health care service plans by the Department of Managed Health Care. A willful violation of those provisions is a crime. Existing law, on and after January 1, 2020, prohibits a health care service plan from including in a contract with a pharmacy provider or its contracting agent a provision that prohibits the provider from informing a patient of a less costly alternative to a prescribed medication. Existing law requires a health care service plan that contracts with a pharmacy benefit manager for management of any or all of its prescription drug coverage to require the pharmacy benefit manager to comply with specified provisions, register with the department pursuant to those provisions, and exercise good faith and fair dealing in the performance of its contractual duties to a health care service plan. Existing law provides for the regulation of health insurers by the Department of Insurance. This bill would, on and after July 1, 2021, prohibit a health care service plan or a health insurer from entering into, renewing, or extending a contract for pharmacy benefit manager services, as defined. Because a violation of this prohibition by a health care service plan would be a crime, this bill would impose a state-mandated local program. This bill would create the Prescription Acquisition and Adjudication Agency, and would create an advisory board for that agency, as specified. The bill would require a division of the agency to offer pharmacy benefit manager services to health care service plans and health insurers, including adjudicated claim processing, negotiations for pharmaceutical discounts, and the creation of formularies for each plan or insurer, as specified. This bill would additionally require a separate division of the agency to negotiate with pharmaceutical manufacturers for discounts and rebates for those plans or insurers, and would require the agency to develop a closed bidding process for those negotiations. The bill would require an agreement between the agency and a health care service plan or health insurer to include provisions granting 10% of any rebate or of the difference between the market value and the price negotiated by the agency, or 100% of the rebate or difference if the agreement is with a Medi-Cal managed care plan, to be paid to the agency, and deposited in to the Pharmaceutical Discount Fund, and would make those funds available, upon appropriation by the Legislature, to the agency to fund its costs or for other programs to lower health care costs in the state. Existing constitutional provisions require that a statute that limits the righ... (click bill link to see more).

## Title

Ins Code-Birth Control

## Description

Amends the Department of Public Health Powers and Duties Law of the Civil Administrative Code of Illinois. Provides that the Director of Public Health, if a physician licensed to practice medicine in all its branches in Illinois, shall establish a standing order complete with the issuance of a prescription for a hormonal contraceptive in accordance with the requirements of the provisions. Provides that if the Director is not a physician licensed to practice medicine in all its branches in Illinois, the Medical Director of the Department of Public Health shall establish the standing order. Amends the Illinois Insurance Code. Requires a group or individual policy of accident and health insurance or managed care plan to provide coverage for patient care services provided by a pharmacist. Makes conforming changes in the State Employees Group Insurance Act of 1971, the Counties Code, the Illinois Municipal Code, and the School Code. Amends the Pharmacy Practice Act. Provides that the definition of "practice of pharmacy" includes the dispensing of hormonal contraceptives pursuant to the standing order under provisions of the Department of Public Health Powers and Duties Law of the Civil Administrative Code of Illinois. Amends the Illinois Public Aid Code. Requires the medical assistance program to cover patient care services provided by a pharmacist for hormonal contraceptives assessment and consultation. Effective January 1, 2020.

**Bill Summary:** Last edited by zAllie Jo Shipman at Feb 6, 2019, 5:30 PM

This bill changes the definition of the practice of pharmacy to allow a pharmacist to dispense a 12-month supply of hormonal contraceptives to a patient pursuant to a standing order. It also requires pharmacists to complete an ACPE-accredited training program prior to dispensing under the standing order. This bill requires certain health insurance plans to provide coverage for patient care services provided by a pharmacist for hormonal contraceptives assessment and consultation. It requires the state Medicaid program (both FFS and managed care) to cover these services at a rate of reimbursement of 85% of the physician fee schedule.

**Bill Summary:** Last edited by zAllie Jo Shipman at Feb 1, 2019, 4:54 PM  
This bill limits payments to PBMs to the actual ingredient cost, a dispensing fee, and an administrative fee per claim in managed care. It prohibits PBM spread pricing in managed care and requires the PBM to report all sources of income to the health care plan, including rebates. This bill also requires PBMs to be licensed by the superintendent of insurance and to submit annual reports to the superintendent, and it provides additional oversight authority to the superintendent. The Senate companion to this bill is S 1507. (Budget Bill)

**Bill Summary:** Last edited by zAllie Jo Shipman at Feb 7, 2019, 8:49 PM  
This bill allows pharmacists to dispense a self-administered hormonal contraceptive or administer an injectable hormonal contraceptive pursuant to a standing order to a patient over the age of 18 or under 18 who has evidence of a previous prescription from a practitioner for a self-administered or injectable hormonal contraceptive. This bill also states that pharmacist services are a benefit under the state Medicaid program and requires the department to establish a fee schedule for the aforementioned pharmacist services at a reimbursement rate of 70% of the fee schedule for physician services. The Senate companion bill is S 448.

**Bill Summary:** Last edited by zAllie Jo Shipman at Feb 6, 2019, 3:21 PM  
This bill amends provisions related to fair pharmacy audits to clarify that clerical errors are not prima facie evidence of fraud and to prohibit recoupment for the cost of the drug or dispensed product except in certain circumstances. This bill also prohibits claims adjudication fees unless apparent and assessed at the time of claims processing; prohibits contract terms requiring a pharmacist to dispense a drug to a patient; prohibits a PBM from notifying patients of the removal of a pharmacy from a network prior to notifying the pharmacy; and mandates PBMs notify network pharmacies of material changes to contract provisions at least 30 days prior to the effective date. This bill requires the state comptroller to perform an annual audit of PBMs providing services funded by the state. It also requires contract terms between PBMs and pharmacies to be mutually agreed upon; prohibits false or misleading advertisements or representation by PBMs; prohibits PBMs from failing to make payments to pharmacies removed from a network if services by the pharmacy were properly rendered; prohibits PBMs from reimbursing non-affiliated pharmacies less than it reimburses itself or affiliated pharmacies; and prohibits PBMs from designating a drug as a specialty drug based solely on cost.

**Bill Summary:** Last edited by zAllie Jo Shipman at Feb 1, 2019, 5:10 PM  
This bill requires Medicaid managed care organizations to provide quarterly reports to the state related to pharmacy claims. It requires claims-level data on drug cost reimbursement, dispensing fees, copayments, and the amount charged to the plan sponsor (state). It also requires an itemization of all administrative fees, rebates, and processing charges associated with each claim. This bill also requires third party administrators for state employee health plans to provide similar information to state employees through an explanation of benefits and to provide aggregate data to the state related to the differences in amounts paid to pharmacies by the PBM, charged to the TPA by the PBM, and charged to the state by the TPA. (Budget Bill)

<div> <div> <div>Title</div> <div>Health insurance rate reviews; pharmacy benefit price spread.</div> </div> <div> <div>Description</div> <div>Health insurance rate reviews; minimum anticipated loss ratios; pharmacy benefit price spread. Requires the State Corporation Commission (Commission) to treat the price spread on any contract between the issuer of a health benefit plan and its pharmacy benefits manager as an administrative cost of the issuer. The measure requires the issuer's administrative costs to be excluded from the amount of benefits provided under a health benefit plan when the Commission determines the health benefit plan's anticipated loss ratio. The measure codifies portions of the Commission's regulations promulgated to implement the requirement that it review and approve the premium rates for health benefit plans, including the requirement that the benefits provided by a health benefit plan are reasonable in relation to the premiums charged.</div> </div> <div> <div>Primary Sponsors</div> <div>Keith Hodges</div> </div> </div> <div> <div> <div>Bill Summary:</div> <div>Last edited by zAllie Jo Shipman at Feb 1, 2019, 5:19 PM</div> </div> <div> <div>This bill requires health insurance issuers to apply any price spread by a PBM as an administrative cost and not a health benefit for the purposes of calculating the anticipated loss ratio. It allows only the amount paid to the pharmacy to be counted as a health benefit.</div> </div> <div> <div>Labels:</div> <div>MLR</div> <div>Transparency and Disclosure</div> </div> </div>
