Bill Summary: Last edited by zAllie Jo Shipman at Mar 8, 2019, 12:43 AM
This bill would allow pharmacists to prescribe tobacco cessation products and tuberculin purified protein derivative products. It would also remove the board authorization requirement for pharmacist prescribing of drug, drug categories, or devices that are limited to conditions that do not require a new diagnosis, are minor and generally self-limiting, have a test to guide diagnosis or clinical decision-making and are CLIA-waived, and are prescribed in accordance with FDA-approved labeling.

Bill Summary: Last edited by zAllie Jo Shipman at Feb 6, 2019, 5:30 PM
This bill changes the definition of the practice of pharmacy to allow a pharmacist to dispense a 12-month supply of hormonal contraceptives to a patient pursuant to a standing order. It also requires pharmacists to complete an ACPE-accredited training program prior to dispensing under the standing order. This bill requires certain health insurance plans to provide coverage for patient care services provided by a pharmacist for hormonal contraceptives assessment and consultation. It requires the state Medicaid program (both FFS and managed care) to cover these services at a rate of reimbursement of 85% of the physician fee schedule.

IN	HB 1248	Signed By The Governor 2019 05 05	Enacted	Support
Primary Sponsors Rita Fleming, Vaneta Becker, Ron Grooms, Steve Davisson		Bill Summary: Last edited by zAllie Jo Shipman at Feb 7, 2019, 9:30 PM This bill allows a pharmacist to initiate a refill for the quantity on the most recent fill or a 30-day supply, whichever is less, for noncontrolled substances. It also allows the pharmacist to change the prescribed quantity or package size if it is not commercially available, relates to a change in dosage form, reflects the intended days supply, or if in the best interest of patient care. This bill allows a pharmacist to complete missing prescription information if there is sufficient evidence to support the change and to extend a maintenance drug for the limited quantity necessary to synchronize a patient's refills. This bill also allows pharmacists to prescribe inhalation spacers, nebulizers, supplies for medical devices (including CPAP machines and insulin pumps), normal saline and sterile water for irrigation, diabetes testing supplies, pen needles, and syringes.

Bill Summary: Last edited by Ademola Are at Oct 7, 2019, 5:37 PM
Addresses limited distribution status, unnecessary required accreditation, and network accessibility. Prohibits a carrier from preventing the dispensing of specialty drugs included in the patient's pharmaceutical drug benefits by any pharmacy licensed by the state BOP. The board shall establish a procedure to license specialty pharmacies – as it should be since the board regulates the practice of pharmacy. A specialty pharmacy shall not be defined as a mail service pharmacy. List of drugs dispensed shall be sent to the board annually – allows for transparency on what the PBMs deem specialty vs what they allow community pharmacies to dispense
