- 3** We Do The Rest!

SALE DATES: Today thru June 10. Not responsible for typographical or printing errors. Sale prices good while supplies last.

Hello **SUMMER** Savings!

JUNE

cancer survivor's month

There are more than 12 million cancer survivors in the United States. National Cancer Survivor's Day is **Sunday, June 4**. Talk to your pharmacist today about developments in cancer prevention, early detection and treatment.

Who is a cancer survivor?

The National Cancer Survivors Day Foundation defines a "survivor" as anyone living with a history of cancer – from the moment of diagnosis through the remainder of life. And National Cancer Survivors Day affords each community an opportunity to demonstrate that it has an active, productive cancer survivor population.

FOUNDED IN 1987

According to the American Cancer Society, over 1.6 six million new cases of cancer will be diagnosed, and over six hundred thousand cancer-related deaths will occur in the United States alone. Cancer is the leading cause of death in the United States behind heart disease. The good news is that a significant amount of new cancers are treatable if they are caught in their early stages. Here are ten early indications of cancer.

1. Persistent Cough
2. Blood In Stool
3. Low Blood Count
4. Lumps
5. Changes In Urine
6. Changes In Warts And Moles
7. Difficulty Swallowing
8. Abnormal Vaginal Discharge or Bleeding
9. Non-healing Sores
10. Persistent Back or Bone Pain
