

Ongoing Industry Event – Future Brand WAC Decreases

(10/31/25)

Dear valued customer,

As manufacturers continue to decrease the Wholesale Acquisition Cost (WAC) pricing on certain Bx (Brand) products, McKesson aims to provide information on how future reductions will be handled.

Notification

McKesson will provide notice of WAC decreases when the manufacturer has made such information public in advance. These notifications will be sent out via Message Center in McKesson Connect. It is also expected that WAC decreases may come **with little-to-no notice**, in which case the pricing change will serve as notification.

Returns

Returns will be blocked 30 or more days prior to the effective date of a pricing decrease if there is advance notice given by the manufacturer. The block will remain in effect for any items ordered prior to the effective date of the pricing change. Returns will be allowed going forward for any items ordered on or after the effective date of the decrease.

Customer Programs

Programs offering customers credit to compensate for on-hand inventory devaluation are completely at manufacturers' discretion, and McKesson does not control that decision. McKesson will work with the manufacturer when applicable, to facilitate in passing the credit/rebate to eligible customers.

For any additional questions, please contact your McKesson Sales Representative.

List of recent/upcoming WAC decreases – As of 10/31/2025

Manufacturer	Item	NDC	WAC Eff. Date	McKesson Item
