

Linress Limited Duration Pharmacy Purchase Rebate Program

AbbVie has announced they will reduce the Wholesale Acquisition Cost (WAC) of Linress. All three strengths of Linress (72 mcg, 145 mcg., 290 mcg) will be lowered from the current WAC of \$567.97 to \$282.48 effective January 1, 2026.

Decreasing WAC price for prescription medications may have implications to the channel, therefore, AbbVie will be offering a Linress Limited Duration Pharmacy Purchase Rebate Program.

To administer the rebate program, AbbVie has partnered with our authorized wholesalers and distributors (W/D) to proactively provide a rebate for the WAC differential on eligible purchases to their downstream customers.

Purchase eligibility rules apply:

- Eligible: U.S. purchases made through an AbbVie authorized Wholesaler/Distributor between the dates of December 14, 2025 through December 27, 2025. Purchase date is defined as order Date.
- Eligible: All Linress NDC's: 00456-1201-30, 00456-1202-30, 00456-1203-30
- **Ineligible:** Linress 340B purchases

The purchase rebates will be calculated as: OLD WAC/CONTRACTED PRICE minus NEW WAC/NEW CONTRACTED PRICE multiplied by the eligible units purchased equals the REBATE PAID to downstream customers. The rebates will be completed no later March 31, 2026.

AbbVie Linress Return Policy:

AbbVie's Linress Return policy can be found at [e-abbvie.com](https://www.e-abbvie.com) which states: Returned product must be 6 months prior to expiration or less than twelve (12) months past expiration.
