DON'T MISS OUT!
Aetna 30-90 Day Conversion Program
Cases to Expire May 8th

\$10 Payment for Each Served Case,
Additional \$10 for each Targeted Prescription Converted

Your pharmacy has open cases for the Aetna 30-90 Day Conversion Program. The Aetna 30-90 Day Conversion Program has a goal of converting patients from a 30-day fill to a 90-day fill to promote patient adherence. Cases released earlier in the year are due to expire on May 8, 2018. Please check your MirixaProSM queue for all of your available cases.

Aetna pays \$10 for each served case with an additional \$10 for each targeted prescription the patient agrees to convert to a 90-day fill schedule.

Patients may be eligible for multiple 30 - 90 day conversions. Please take advantage of this opportunity to work these cases before they expire!
